OVERVIEW

Nathan is an experienced strategic management executive who has worked across multiple industries including; sport and recreation, health and aged care, renewable energy, higher education, defence, manufacturing, mining and agriculture.

Nathan initially worked in the leisure industry, managing both golf courses and recreation centres, coordinating swimming programs and working as a professional beach lifeguard.

As a management consultant he has experience in preparing leisure strategies, feasibility studies, business plans, management audits and international management projects. He has undertaken assignments in all states of Australia, Asia, Europe and South America.

Nathan works directly and intimately with clients to build

rapport, understand and trust to deliver optimal results.

He is also Managing Partner of AsiaAustralis an international strategic management advisory firm.

Nathan offers a wide range of skills having been involved in market research, strategic planning, management planning, policy evaluation and situation analysis.
